

OBBBA Incentivizes Equipment Financing for Businesses

The One Big Beautiful Bill Act (OBBBA) includes two key tax provisions that enhance companies' capacity to invest in equipment and secure financing.

This is for NEW and USED equipment.

Expensing 100% of Eligible Equipment Purchases

Qualifying businesses can now immediately deduct the full cost of eligible equipment purchases, rather than depreciating it over several years. This gives companies:

- Healthier cash flow
- More incentive to invest now
- Quicker ability to upgrade outdated equipment and increasing efficiency and productivity.

Qualifying businesses are now able to expense more equipment upfront while reducing their tax burden and improving cash flow

EBITDA-Based Interest Deduction Can Be Used Again!

The ability to deduct interest on business loans can once again be deducted based on Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA). This enables:

- Increased amount of borrowing capacity
- Improves access to capital for equipment
- Greater tax deduction than before by now adding interest payments as a deduction.

Businesses can deduct interest on financed equipment. The total cost of ownership can be less!

The Bottom Line:

Equipment financing is a more attractive and useful business tool to reduce tax burdens and give businesses the confidence to purchase equipment.

Deferred or Step payment programs available for customers with qualifying credit.

M Financial 365 has multiple financing plans that can be tailored to each customer's needs.

Check with your accountant to confirm eligibility for these great incentives

To finance your equipment purchase using affordable, simple and EASY equipment financing:
